

Field Trips At TAG USA Gymnastics

Gymnastics & Trampoline

The largest gym in South Florida is transformed into the largest playground for field trips. Our 38,000 square feet facility is filled with trampolines, tumble tracks, foam pits, swing ropes, inflatables, and other fun equipment. Each reserved field trip is **private** for your group and is monitored by a coach.

Largest Gym in South Florida now offers something even bigger ... "The Universe"

Planetarium Shows

The Luna Planetarium provides a fun introduction to the wonders of the night sky for grades K-12. Besides interesting mythological stories, the program covers a wide variety of information about our Sun, the planets within our Solar System, the stars, constellations, and our Milky Way galaxy. Many astronomy topics from the Florida Sunshine State Standards will come to life inside the planetarium dome. Presenter Arno van Werven can also modify the presentation to include any astronomy related topics you would like to delve into.

Gymnastics Pricing
